

SikaColor® -100 P

POWDER INTEGRAL COLORS

BUILDING TRUST

Colors shown on this chart approximate the color of broom finished concrete flatwork made with a medium gray cement and cured with SikaColor®-500 Colorwax™ in the matching color or sealed with solvent-based SikaCem®-100 Clear Guard™. If SikaColor®-100 Clear Guard™ or SikaCem®-500 Colorwax™ are not used, the concrete color will not be as vibrant as shown. Concrete should be batched and placed in accordance with Product Data Sheets. Concrete color is altered by many factors, including cement and aggregate color, slump, finishing practices, and curing method. Using the contemplated materials and construction techniques, representative samples should be cast for approval, especially when exact color matching is important.

U10 Sonoran Tan

U11 Autumn Oak

U26 Lanon Stone

U20 Smoke

U21 Sandstone

U12 Sunset Beige

U13 Millstone

U31 Weathered Terra Cotta

U18 Gull Gray

U22 Salt Marsh Gray

U35 Shadow Slate

U51 Clary Sage

U24 Georgia Clay

U15 Coral Buff

U16 Harvest Wheat

U37 Sienna

U27 Mocha Brown

U25 Santa Fe Buff

U33 Hampshire Red

U34 Brick Red

U14 Pewter

U29 Soapstone

U28 Charcoal

U49 Deep Charcoal

SikaColor®-100 P POWDER INTEGRAL COLORS

SikaColor®-100 P Powder Integral Concrete Colorant is a pre-measured admixture for integrally coloring ready mixed concrete during batching. Conforming to ASTM Standard C979 (Standard Specification for Pigments for Integrally Colored Concrete), it is a blend of non-fading, synthetic iron oxides and a water-reducer, which produce uniform, streak-free colors in concrete. The water-reducer in SikaColor®-100 P Powder Integral Concrete Colorant allows the color to quickly and evenly disperse without additional water, thereby maintaining the strength and freeze/thaw resistance of the cured concrete. This same component improves the finishing characteristics of the concrete, which contributes to color uniformity and surface durability. Superior quality control during manufacturing and packaging help to ensure your jobs will have uniform color from load-to-load.

SikaColor®-100 P Powder Integral Concrete Colorant is suitable for all concrete flat work installations, interior floors and exterior hardscapes, as well as precast, tilt-up and cast-in-place applications.

SikaColor®-100 P Comparable Color Reference Table

CHROMIX® Integral Colors	Uni-Mix® Integral Colors*
C15 Coachella Sand	U10 Sonoran Tan
C18 Spring Beige	U11 Autumn Oak
C135 Summer Beige	U12 Sunset Beige
